One of our many RCMA WCA traditions!

Principal's Message

Our school has been the recipient of Webster's English dictionaries for each third grader to take home for many years, thanks to the support of the Rotary Club of Sun City Center.

In the Fall, Ann Hammond of this local Rotary Club contacted us and said that their club wanted to continue to support our scholars, but try something new. She asked if teachers might appreciate receiving wall maps. We said yes, as geography knowledge is an important aspect of our K-5 ELA Curriculum from Amplify. Several visits to the school ensued so that the Rotary Club members could best assess the need, as well as determine what they could do to help out. As a result, four full-sized wall maps were shipped to the school and mounted on walls by our awesome maintenance team. Then on Thursday, four local Rotary members including Ms. Hammond visited the classrooms and got pictures with the scholars. The picture featured is of Ms. Saez' Third Grade Class, and four members of the local Rotary Club, including William "Bill" Cox whom we've known for many years, and Ann Hammond.

Events and Reminders
