Principal's Message

Each year the Tampa Museum of Art invites Hillsborough County art teachers to submit a student's artwork for the Young at Art Student Exhibition. The Museum celebrates the creativity of this year's submissions from students in kindergarten through eighth grade.

For the fourth consecutive year our school is participating in this event, giving a student the opportunity to exhibit in one of the most important art spaces in our area. This year Allen Morales was selected. Allen is one of our most talented students in the Middle School Art program. Allen's work is a pencil drawing that conveys the beauty of our Hispanic heritage. Allen's work along with other county students will be at the museum until March 17. Admission to the exhibition is free.
