2024 - 2025 Edition #17 01/06/25

### Principals Message

Dear "A" team,

Happy New Year, and welcome back! I hope you all had a restful break and are ready to dive into 2025 and our second semester together.

I want to start by saying how amazing the end of our first semester was. We wrapped it up with a week full of fun activities for our faculty and a Winterfest for our scholars. Your dedication and energy made it a memorable time, and I'm truly grateful for all your hard work.

I'd also like to extend my heartfelt thanks to Ms. Paulsboe and Ms. Garcia for all the hard work in organizing the Middle School activities and coordinating with the Elementary team leaders for a seamless school-wide event that ran smoothly on both sides of the campus. Additionally, thank you for coordinating the faculty activities along with Ms. Martin, Ms. Bethany and Ms. Rios.

A big shoutout to Ms. Tara and Ms. Patricia for the balloon arch that created such a beautiful backdrop, and finally, to Ms. Diana for coordinating the Berkeley gift distribution in the cafeteria. Your efforts truly made a difference!

As we step into the second semester, let's keep that same positive energy going. We have a lot of work ahead of us to reach our goal of earning an 'A.' I believe in each one of us. Let's support each other, stay motivated, and continue to make a difference in our scholars' lives. I know for sure that together we will **A**chieve.

### Events and Reminders

#### Car Line: Ritchie & Yaruro

#### Monday: 01/06

#### Professional Development

Dias de los Reyes

#### Tuesday: 01/07

- Lunch:
- Birthdays: Jonathan A., Alan G.,

#### Wednesday: 01/08

- Lunch:
- Birthdays: Alexis A., Alexis J., Melanie N.

#### Thursday: 01/09

- Lunch:
- Birthdays: Jose C., Edwin D., Yhoel J.

#### Friday: 01/10

- Lunch:
- Birthdays: Amani G., Dylan H., Eduardo M.,
- Events: Grades are due.

#### Weekend

- Birthday: Ana L.

### Math News

On December 1-20, 2024, Ms. Johnson ran a Reflexmath competition for grades 2-5. Students competed to see who could complete the most green lights in a 3 week period to win a prize. It was an exciting competition to see all the students working to improve their fact fluency! The effort and dedication of the students, even over the weekends, really showed their determination. Congratulations to Brayan Alonzo (2nd grade), Kevin Gonzalez (3rd grade), Briana Evenes (4th grade), and Andrew Lazaro (5th grade) for their outstanding achievements. Winning a Reflexmath competition like this is a fantastic accomplishment, and the Amazon Fire HD tablets, courtesy of Ms. Johnson, are well-deserved rewards! 🎉👏 Thank you, Ms. Johnson.
