- Event: Berkeley @ 10:30 am
- Birthday: Gabriela Chafoya, Mr. Deigo

Sunday: 09/21

- Birthday: Jayse Morales , Frankie Sosa

This Week Marks the Start of the Berkeley Program for 2025–2026

RCMA is proud to announce that a total of 20 combined 7th and 8th graders will be participating in the program this year. The current 7th grade class includes 12 students who were accepted last year and are now continuing their journey. The Berkeley Program is a rigorous and enriching academic initiative that provides middle school students with opportunities to grow as scholars, leaders, and community members. Over the course of six years, students participate in advanced coursework, mentorship, and college readiness activities designed to prepare them for long-term academic success. RCMA is extremely proud of these students, as they went through a highly selective application process. From being nominated by their teachers, to writing a thoughtful application essay, participating in mock interviews, and completing the final interview, each step required dedication and commitment. Committing to a six-year program is no easy feat, and these students have already shown the drive needed to succeed. Applications for the next cohort will open in November. Attention 6th grade students : be on the lookout! Remember, you can only apply if you are nominated by your teacher. Looking forward to this year's nominations!
