- Birthday: Deyvi Santiago

Second Graders Explore Tampa Bay's Wonders

Our enthusiastic second graders enjoyed an exciting field trip to the Pier in St. Petersburg, where they visited the Tampa Bay Watch Discovery Center. During their visit, students learned about the estuary environment, explored the unique wildlife that lives in and around Tampa Bay, and discovered how people can help protect these important ecosystems. The day was filled with hands-on learning, exploration, laughter, and some water time, making it a fun and memorable educational adventure by the bay!
