The Power of Reading at RCMA WCA

Reading is a fundamental foundation for student learning and growth. It supports success across all subject areas by building vocabulary, strengthening comprehension, and developing critical thinking skills. Reading also helps students grow emotionally by encouraging empathy, reflection, and understanding of different perspectives. To celebrate the joy of reading, RCMA WCA middle schoolers recently hosted an “Outsider’s Day” inspired by the novel *The Outsiders*, a middle school favorite. This powerful coming-of-age story highlights the importance of family, loyalty to friends, perseverance through challenges, and overcoming poverty and prejudice. It also teaches students that it’s okay to be different and to embrace being an “outsider.” Through this experience, students connected deeply with the story, reflected on important life lessons, and strengthened their love for reading.
