RCMA & Partners :

Scholars Preparing for the Future

High school is an exciting time filled with new experiences. Students meet new friends, explore new subjects, and discover opportunities that help shape their futures. For many of our scholars, this journey is even more meaningful because they are first-generation students , meaning they may be the first in their families to graduate from high school and continue on to college or university.

At RCMA, our mission is to support students from the cradle and beyond, helping them prepare for lifelong success.

This past Saturday, RCMA Berkeley Academy 9th grade students attended their BA Saturday event. The RCMA Class of 2025 currently has eight BA students attending a variety of high schools, including Cristo Rey High School, Morgan High School, Jefferson High School, and Lennard High School.

Students learned more about the new experiences and challenges that await them in 10th grade. They also explored the many resources available to help them succeed academically and personally throughout their high school journey.

As Eleanor Roosevelt once said, "The future belongs to those who believe in the beauty of their dreams."

We are proud of our scholars as they continue to grow, explore, and take the next steps toward bright futures.
