- **Event:** Berkeley Program 7th, 8th, 9th 9am-12:30pm
- Birthday: Milania Meza , Mateo Gonzalez

Sunday: 03/08/2026

It's a Big Year for Third Grade

Third grade is a very important year for students to develop grade-level reading skills all across FL, as it is the grade that promotion to the next grade level is largely dependent upon the FAST PM 3 Reading level. RCMA has an annual parent night to explain the State rule to parents, and give them an indication of how well their child is performing thus far on practice State tests.

Scholars recently finished Unit 7: Astronomy - Our Solar System and Beyond from Amplify. They have been learning about topics ranging from the planets in our solar system to the scientists who developed the Big Bang Theory. To give students an opportunity to demonstrate their understanding in a way that supports different learning styles, Mrs Vargas (Spanish side) and Mrs Brito (English side) introduced a creative reflection activity to assess them.

Teachers used the Be GLAD Learning Log strategy, which allows each student to showcase what they have learned through writing and illustrations. This approach encourages self-expression, reinforces key concepts, and gives every scholar a meaningful way to share the knowledge they have gained.
